

Mohammed Irfan S

.NET FULL STACK DEVELOPER

Chennai, Tamil Nadu, India | +91-7299576769 | mohammedirfan0702@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented .NET Full Stack Developer with 2.7 years of experience designing, developing, and maintaining high-performance web applications using C#, ASP.NET Core MVC, and .NET Core Web APIs. Proficient in Entity Framework Core, LINQ, SQL Server, and RESTful service integration. Skilled in applying Repository Pattern, Dependency Injection, and Code First development to deliver scalable, maintainable enterprise applications. Experienced in building responsive front-end interfaces using HTML5, CSS3, JavaScript, Bootstrap, jQuery, AJAX, and React. Strong track record of optimizing database performance, implementing secure APIs, and collaborating in Agile teams to deliver business-critical solutions on schedule.

CORE COMPETENCIES

C# | ASP.NET Core MVC | .NET Core 6.0/8.0 | .NET Framework 4.6/4.7 | Web API | Entity Framework Core | Dapper | ADO.NET | LINQ | SQL Server 2019/2022 | RESTful API Design | JWT Authentication | React | JavaScript (ES6) | jQuery | AJAX | HTML5 | CSS3 | Bootstrap | Repository Pattern | Dependency Injection | SOLID Principles | Clean Architecture | Layered Architecture | Microservices Concepts | Git | GitHub | Jira (Agile/Scrum) | Swagger | Postman | xUnit | Unit Testing | Azure | IIS | Database Design & Optimization | Stored Procedures | Query Optimization | ACID Transactions

TECHNICAL SKILLS

Languages: C#, LINQ | .NET Core: .NET Core 6.0, 8.0
Frameworks: .NET Framework 4.6/4.7, ASP.NET MVC, Entity Framework (ORM), Dapper (ORM), ADO.NET, React
Scripting: JavaScript (ES6), jQuery, AJAX | Database: SQL Server 2019, 2022
Design & UI: HTML5, CSS3, Bootstrap | Version Control: Git, GitHub
Tools: Jira (Agile), Swagger, Postman, xUnit
Architecture & Cloud: Monolithic, Layered, Clean Architecture, Azure, IIS

WORK EXPERIENCE

Software Developer

January 2024 - Present

Uniq Technologies, Chennai

- Designed secure, optimized SQL Server databases and built RESTful APIs using C#, ASP.NET Core, and EF Core, applying MVC and Clean Architecture with Repository Pattern and Dependency Injection.
- Collaborated with cross-functional teams to gather requirements, implemented validation and error handling for reliable systems, and built responsive UI with HTML, CSS, and JavaScript, supporting Azure-based deployments.

Information Technology Executive

October 2023 - December 2024

CAMS Limited, Chennai

- Managed the end-to-end lifecycle of investor credentials across multiple production servers, including secure creation of new unique identifiers and real-time modification of existing records.
- Performed systematic decommissioning of inactive IDs to maintain database hygiene and ensure the integrity of investor data management processes.

Senior Associate

June 2021 - June 2023

Altruist Technologies Pvt. Ltd., Chennai

- Served as a specialized point of contact for managing and resolving unhandled or high-priority service requests, ensuring no client inquiry or system alert went unaddressed.
- Maintained company Service Level Agreements (SLAs) and drove consistent client satisfaction through disciplined escalation and operations management.

PROJECTS

CRM - Customer Relationship Management

- Developed and managed end-to-end CRM workflow covering customer management, lead tracking, sales activities, and reporting within a centralized system.
- Designed and integrated secure RESTful APIs using ASP.NET Core with JWT-based authentication to enable seamless and secure communication between frontend and backend.
- Implemented business logic and workflow automation for lead assignment, follow-ups, and customer activity tracking to reduce manual effort and improve efficiency.
- Optimized database operations and built reporting features to analyze customer data, track sales performance, and support business decision-making.

ITCPC - Spices Auction Trading Platform

- Developed an ITCPC cardamom auction trading platform to manage market prices, auctions, and trading operations digitally.
- Implemented goods tonnage tracking, inventory management, order processing, and billing generation modules.
- Automated price updates, auction participation tracking, and reporting to reduce manual operations.
- Integrated shipping, payment, and notification features for end-to-end auction trade management.

EDUCATION

Bachelor of Computer Applications (BCA)

2017 - 2020

Sadakathullah Appa College
